Where does it all go?

Hosted by HSLC, Power Library PA Photos and Docs contains thousands of digitized documents and photographs from unique collections in libraries across PA.

PA Digital was announced as a Digital Public Library of America (DPLA) Service Hub in August 2015. Participating in the DPLA will enhance discovery of and access to Pennsylvania cultural heritage content, thus broadening its use and impact worldwide.

The Digital Public Library of America (DPLA) is an all-digital library that aggregates metadata — or information describing an item — and thumbnails for millions of photographs, manuscripts, books, sounds, moving images, and more from libraries, archives, and museums around the United States.
