Known Issues

- **SIRS Discoverer** - If you are from a Public Library, your usage of Proquest SIRS Discoverer may read as “K-12” for the months of January to June, 2017. Please ignore this K-12 designation.

- **Supported Internet Browsers** - Microsoft Edge or Internet Explorer are not supported by this interface and will not function well. Please use Chrome, Firefox, Safari or another browser.

- **File Naming** - By default, your downloaded files will be named with the name of the PL code of the library you logged in as, not as the library you are reporting on (In this example, PL1234 ...). You can change the file name at the moment of saving the file, or later from your operating system.

- **Email Whitelisting** - Whitelist or ask your IT staff to whitelist auto-graphics.com, powerlibrary.org and hslc.org in your email system.

- **No or Lower than Usual Statistics?** If you are concerned that some of your library’s data is not showing up in the new reports, please contact HSLC Support.
